RULING ON ENTITLEMENT¹

On January 8, 2021, Jason Frank filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a shoulder injury related to vaccine administration (“SIRVA”) as a result of an influenza vaccination he received on January 17, 2020. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On May 30, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that "it is Respondent's position that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI") for SIRVA." *Id.* at 3. Respondent further agrees that "the records show that Petitioner timely filed his case and that he received the flu vaccination in the United States" and that "Petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of his injury for more than six months after vaccine administration." *Id.* at 4.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
